Forecast for Monday 01 Nov 2021

Weather: A dry and bright day with some sunny spells. A few showers moving across the area, although these will move through quite quickly in the very strong winds. Feeling cold on the hills with a notable wind chill.

Chance of cloud free mountain/hill tops above 600m: 70%, with breaks most likely across south and east.

Visibility: Good to very good views away from showers with distant hills visible. Becoming moderate to poor at times, however, as showers move through. Perhaps more persistently moderate in the west where cloud remains more extensive. Cloud obscuring hills above 600m, with patches down to 500m during heavier showers.

Meteorologist's View

Early gales on highest tops soon easing, but staying breezy with a notable wind chill. Warm layers recommended, along with waterproofs in case of occasional showers.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
03:00 on Mon 01 Nov 2021	36.2mm	42.8mm	52.2mm

Forecast for Tuesday 02 Nov 2021

Weather: Showers easing overnight, leading to a clear and cold start. Light winds will allow for the odd patch of valley mist or fog by dawn. A day of sunny spells and occasional showers follows. These could be heavy at times, with the best of the dry weather across the south and east.

Maximum wind: Westerly or northwesterly 15-20mph.

Chance of cloud free mountain/hill tops above 600m: 80%

Visibility: Very good visibility away from showers, with distant hills visible. Showers will limit views at times, with scattered cloud also obscuring some summits above 800m

Temperature: **Valleys:** Plus 1 Celsius rising to Plus 11 Celsius.
At 600m: Plus 2 Celsius rising to Plus 6 Celsius.
Freezing level: Above the summits.
